

Scan & Send *almost* anything – anywhere!

New scan technology that will help you keep your head in the game.

- Scan to E-mail – Simple POP, Exchange or Web based e-mail
- See it in your “Sent Items” Folder inside almost any e-mail program
- Scan to Network and Browse network folders from MFP display based on permissions
- Find Network files FAST from MFP display and “pull print” them – including .PDF files!
- Unified Login – One login gets you into all features!

Available Exclusively for Sharp OSA® - Enabled MFPs

You've asked and we've delivered.

Built off the backbone of the highly successful FileMax Mail™ application, we are excited to release a new program for Sharp OSA V3 technology that at its core delivers the same e-mail functionality from only a single screen! In addition, we've added all the benefits of “on the fly” network scanning, browsing and pull printing all from a highly graphical, user friendly interface from one unified login. No more logging in and out to use everyday functions.

FileMax™ ScanWare provides the most asked for features delivered on single screens, in a tightly packaged, easily administered application.

Easy to use:

E-mail, browse, scan, store and send at the touch of a button in one step from only one screen!

Simple Administration:

- Installation: loads in minutes
- Unlimited users
- Configure any single Sharp® MFP just once, and EVERY Sharp MFP on your network will maintain the same settings simultaneously.

You can use a simple user login or full network authentication to determine user rights.

FileMax ScanWare – A Scan to E-mail Solution for Sharp OSA - Enabled MFPs

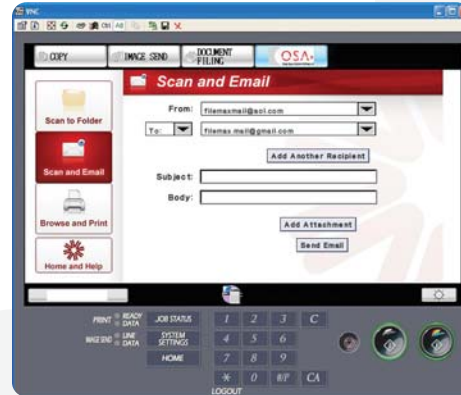

Login Screen

- Unified login.
- One login provides access to powerful e-mail, scanning, browsing and pull printing functions.

Scan & E-mail

- Authenticated e-mail: securely send e-mail from **your** e-mail address.
- Add multiple attachments from a network folder, new scan **or both** in the same e-mail.
- Find a copy in your "Sent Items" folder of your e-mail program at your PC or PDA.
- Works with internet based e-mail (Gmail®, Yahoo® Mail, etc.) as well as Outlook® and Exchange.

Scan to Folder

- Scan to any network folder – **realtime!**
- See any folder on your network.
- Zero administration required.

Browse & Print

- Search for any network file from MFP display.
- Pull print any network file (including .pdf) to MFP or any other network printer.
- Uses already existing network user profiles – no new admin work.

- * Network access is based on user permissions granted through Active Directory. No new administration setup is required. Whether setup is for 1 or 1000 users, setup process is the same.
- * Unified login provides access to e-mail, browsing, scanning and printing by logging in only once.
